BACHELOR DEGREE OPTIONS

Greenville Technical College (GTC) has articulation, transfer, and course equivalency agreements with many four-year institutions, both public and private. GTC works closely with four-year institutions to make the transfer of courses as seamless as possible. The four-year institutions have the final decision on course transfer acceptance. Additionally, the four-year institutions make the final decision whether a course meets elective or program requirement.

Currently, the Engineering Design Technology Department has active transfer agreements with the following four-year institutions.

- [Bellevue University](#)
- [Franklin University](#)
- [USC Upstate BS-ETM](#)

Other colleges/universities that may except some coursework

- [UNC Charlotte](#)
- [Western Carolina University](#)
- [South Carolina State University](#)

The South Carolina Transfer and Articulation Center ([SCTRAC](#)) provides information and resources for planning transfer options to a four-year institution. The [Statewide Articulation Agreement of 86 courses](#) approved by the South Carolina Commission on Higher Education for transfer from two- to four-year public institutions is applicable to all public institutions, including two-year institutions and institutions within the same system.

Transfer agreements are subject to change. Please confirm transfer agreements with the [Planning and Transfer Headquarters](#) (PATH) at GTC and/or the destination university.

Additional Career Resources

Please visit the [Occupational Outlook Handbook](#) and/or [O*NET](#) for additional occupation research in the field.
